Padua College and Brisbane Transport District Routes for 2016

This information is to inform you about changes to district routes servicing Padua College (Kedron) in 2016. Particular district routes referred to include 906 (AM), 918 (PM), 920 (new PM), 946 (AM), and 950 (PM). Other district routes servicing Padua College will be advised by other Brisbane Transport Planners. And other school bus services servicing Padua College will be advised by other Bus Operators.

There will be no changes to routes 906 AM, 946 AM and 950 PM.

However there will be changes to route 918. Due to high patronage in 2015 there are two route 918 buses departing the Jardine Street bus stop next to Padua College. And these buses are to connect with route 397 for students interchanging at Brookside Shopping Centre.

In 2016 one of the two route 918 buses will be converted to a new route 920. And rather than interchange at Brookside Shopping Centre route 920 will continue to Ferny Grove CityTrain station via the majority of the 397 route. Therefore students will not have to interchange, and they will arrive at their respective bus stops earlier than the journeys requiring interchanging in 2015. In regard to the second route 918 bus, this service will be maintained however without a required connection with route 397 at Brookside Shopping Centre.

And please note we are advised by the Queensland Government that Monday 25th January 2016 will be a pupil free day, therefore district services will begin Wednesday 27th January 2016.
